Personal Profile

Second-year B.Tech student in Information Technology at Delhi Technological University with a strong academic record (GPA: 9.7/10). Proficient in C/C++ and Python with a solid foundation in Data Structures, Algorithms, and Machine Learning. Actively interested in applying AI and problem solving skills to real-world software and data-driven challenges.

Education

2024 – 2028: B.Tech in Information Technology

Delhi Technological University, Delhi, India

GPA: 9.7/10

2023 – 2024: INTERMEDIATE

The Vivekanand School, Narela, India

Percentage: 92.6

2021 – 2022: HIGH SCHOOL

Rukmini Devi Public School, Delhi, India

Percentage: 97.6

Skills

Programming Languages: C, C++, Python

Core Concepts: Data Structures and Algorithms, Problem Solving, Object-Oriented Programming

Machine Learning: Supervised Learning, Text Classification, Feature Engineering

Tools & Libraries: Scikit-learn, NLTK, Pandas, NumPy

Soft Skills: Teamwork, Leadership, Communication

Relevant Coursework

Data Structures and Algorithms, Database Management Systems, Operating Systems, Machine Learning, Probability and Statistics, Object-Oriented Programming

Projects

Fake News Detection (Individual) | 2025 – 2026

GitHub Repository

- Built a supervised text classification model to identify fake and genuine news articles using NLP techniques.
- Applied NLP preprocessing steps such as tokenization, stop-word filtering, and lemmatization to enhance the semantic representation of the text.
- Performed feature extraction with TF-IDF vectorization and trained machine learning classifiers including Logistic Regression and Naive Bayes.
- Attained approximately 95% accuracy on a large, real-world news dataset.

Tech Stack: Python, Machine Learning, NLP, Scikit-learn, NLTK, Pandas

Leadership & Mentorship Experience

Mentor, MentorLink (DTU)

Mentoring junior students through the STEP-DTU MentorLink initiative by providing academic guidance, study planning support, and peer mentorship.
